FIRST START

FIRST PAIRING

Note: the first GSM connection in your country may take longer than usual.

1. Download the Pealock app from the App Store or Google Play.
2. Click the buckle into the lock. The ring starts flashing green. If not, charge the lock for at least 15 minutes.
3. Open the app and follow its instructions. Create an account. GPS and subscription payments need an account. You can skip this step and finish it later in the Account section.
4. Plug the USB-C cable into the lock and the other end into a computer or charger. This starts pairing mode. Then tap Done.
5. Choose the Pealock device and pair it over Bluetooth.
6. Bluetooth is paired. Tap Next.
7. Hold the NFC card from the box to the lock. A short beep means it was read. You can add more NFC accessories, such as a key fob or wristband, later in settings. You can add up to 5 NFC accessories.
8. The lock is ready to use. Tap Finish and unplug the cable.

Without a phone: if you don't have a phone or don't want to use one with the lock, just click the buckle in and hold the NFC card from the box to the lock. The first card is saved to the lock's memory.

HOW TO LOCK AND UNLOCK

Lock and unlock with the button in the app or by holding an NFC card, key fob or wristband to the lock. We recommend using NFC first, as your phone can run out of battery.

ADJUSTING THE STRAP LENGTH

1. Hold the buckle in your left hand, take the strap with your right hand at the arrow and push the strap upwards.
2. Pull the left and right sides step by step to set the length you want. Then don't forget to push the pin back into the hole.

The strap is 35 cm long. Attach the lock upright so water cannot get into the opening under the buckle.

CHARGING AND SUBSCRIPTION

- Charging over the USB-C cable takes about 3.5 hours. A locked lock lasts about 40 hours.
- The first month from SIM activation is free. After that, GPS location, alerts outside Bluetooth range and calls when the alarm goes off need a yearly subscription for 19 €. Pay for it in the app under Account, Payment management.

SUPPORT

Guides and frequently asked questions are on pealock.com. You can write to us at info@pealock.com. Since July 2026, the Pealock services and customer support have been run by Codethica s.r.o.
